WE'VE GOT THE POWER IN SHOWERS

Top showering brands delivered by the experts

Welcome to **The Power In Showers** brochure from bcg. We stock an extensive range of the world's leading brands in showering to suit all your customers' needs and styles. Whether it's power showers, digital, mixers or electric, our showering brands deliver excellence and quality every time.

Offering showering excellence to your customers has never been easier – we have put together a selection of products and will work with you to provide **fantastic terms and buying prices** to ensure strong margins and profits for your business.

Don't forget we offer **next day delivery and guaranteed stock levels** to give you the power to supply your customers with their showering needs.

Have a read through our comprehensive brochure from the UK's leading distributor of The Power In Showers. Our sales team is ready for your order.

Here is an explanation of three symbols you will see displayed next to some of the products in the brochure:

WRAS Products approved by the **Water Regulations Advisory Scheme (WRAS)** have been shown to comply with the requirements of the Water Supply regulations 1999 and amendments

5 YEAR **Warranty logos –** These state the length of warranty for each product (official warranties to be disclosed by the manufacturers, and are liable to change). Please refer to manufacturer's website

TMV2 is an independent testing scheme for thermostatic mixers to ensure high standards of thermostatic protection, reducing the risk of scalding

MIXER SHOWERS

With so many mixer showers on the market today, bcg have taken the hassle away of having to trawl through page upon page of mixers that look the same.

Within the folds of The Power In Showers you will see some of the best on the market by some of the best manufacturers in the world.

Mira Minilite single control exposed valve D15349
(see page 9 for product details)

WHAT IS... A MIXER SHOWER?

A mixer shower blends hot and cold water together to get the optimum water temperature. We sell a variety of mixer showers with manual or thermostatic temperature controls.

On the following pages you will find our extensive range of mixer showers.

To help you find your way through the breadth of this selection, we've put together this quick reference guide to pick out some of our star products.

BAR MIXER SHOWERS

With brands such as Smart4, Aqualisa and Mira, just to name a few, we have a fantastic range of stylish thermostatic showers with some of the very latest technology to make sure showering is a pleasure.

With all these showers, temperatures and flow/power rates can be adjusted to suit your individual needs.

Smart4 Hallin Square
D01227 (see page 17 for product details)

WHAT IS... A BAR MIXER SHOWER?

Bar mixer showers allow users to adjust the temperature to suit their preferences – Thermostatic bar mixer showers blend both hot and cold water together allowing a more precise level of heat dispensed.

On the following pages you will find our extensive range of bar mixer showers.

To help you find your way through the breadth of this selection, we've put together this quick reference guide to pick out some of our star products.

ELECTRIC SHOWERS

One of our most extensive sections and some truly great product on show: from the ever favourite Aqualisa products to the truly exceptional Mira Jump Multi-Fit which, when fitted, can accept water and cable entry from both left or right.

Add to these the Triton T80Z and other fantastic product offerings from Redring that have found their place in many homes up and down the UK and there is a shower here for any household!

Mira Jump Multi-Fit
D90813 (see page 24 for product details)

WHAT IS... AN ELECTRIC SHOWER?

Electric showers take water from the main cold water supply and heat it by passing it over a heating element in the shower – similar to how a kettle works.

ELECTRIC SHOWERS

On the following pages you will find our extensive range of electric showers.

To help you find your way through the breadth of this selection, we've put together this quick reference guide to pick out some of our star products.

GOOD

mira SHOWERS

NOW ACCEPTS WATER & CABLE ENTRY FROM THE LEFT OR RIGHT

NEW MIRA JUMP MULTI-FIT

Quick to fit, long lasting & affordable.

Mira Jump has been improved; it now accepts water and cable entry from the left or the right. Combine that with the added benefits of dual terminal blocks, our patented Clearscale™ technology and more space to work under the cover means that Jump Multi-fit easily replaces any existing electric shower and will outlast the competition.

DIGITAL SHOWERS

The future of showering?

With their pre-programmable features and wireless technology these showers are the pinnacle of showering.

Mixing hot and cold water feeds together digital showers maintain their temperature to the degree and offer many settings such as warm up modes, eco settings, digital clocks and many more.

You'll find them all here amongst the Power In Showers.

Mira Platinum Dual Ceiling Fed D96027
(see page 42 for product details)

WHAT IS... A DIGITAL SHOWER?

Digital mixers take water from your hot and cold supplies and mix it together.

The digital technology ensures you enjoy the exact temperature, every time.

- Variants available for different systems
- Stabilises temperature digitally
- Additional warm up and lock off modes
- Easy to install
- Mixer unit can be mounted away from the shower, such as in the loft
- Reduced pipework
- Remote wireless control

On the following pages you will find our extensive range of digital showers.

To help you find your way through the breadth of this selection, we've put together this quick reference guide to pick out some of our star products.

Also available:
D08365 | POW47484SH | QZD.A2.BV.14
Quartz built-in valve – gravity pumped **£679.00**

Remote control
A remote control is a great addition to a Quartz Digital shower or Quartz Digital bath fill, because it can be positioned at any height and is ideal for children or less able users. Just like Quartz Digital showers and bath fills, the remote control has a simple, push button start/stop and an LED display. **See page 40 for remote control options.**

Force single universal 3.0 bar pump **£395.00**

WHAT IS... A SHOWER PUMP?

Pumps boost the water pressure to appliances where the gravity pressure is not sufficient to give a satisfactory flow.

POWERFACT

PUMPS EXPLAINED

- **Single pumps –** Pump either hot or cold water. Used when cold water storage tanks and hot water cylinders are not close enough to each other.
- **Twin pumps –** Pump both hot and cold water at the same time, or individually. They produce an even pressure giving better mixing capacity.

SALAMANDER HOME BOOST

Mains pressure booster pump

3 YEAR

Salamander Pumps are manufactured in the UK from top quality components, the majority of which are sourced from the EU.

Each component is extensively tested for long life and every pump is subject to strict quality controls before it leaves our factory in Sunderland.

The new **CT Bathroom** range, with increased pressure performance and additional features, has been specifically engineered to meet the increased demands of water supply within your en-suite, bathroom or utility room.

See the Salamander website for warranty terms and conditions.
